

What is mentoring?

Launched by YORLMC, GPMplus offers a free 1:1 mentoring service for GPs, PMs, Nurses, and other practice staff with leadership or decision making responsibilities.

The service is provided by trained mentors who all have experience of working in frontline General Practice and, thanks to funding from NHSEI, it is available to access free of charge.

Who is mentoring for?

GPMplus mentoring can support anyone from the above list who would like to explore ways to develop themselves, or who have a career problem or opportunity they're not sure how to move forward with.

Whilst the mentoring service is aimed at supporting you professionally, we are aware that personal and professional issues intertwine, and you will have the opportunity to discuss anything you wish. We aim to build resilience in the General Practice workforce by allowing you time and space to develop your personal goals.
