

## LMC Treasurers Report 2018/2019

The LMC finances are in a good state.

The levys have stayed unchanged since April 2018 (national levy 8p/patient ,local levy 27 p/patient).

The reserves have increased by approximately 20000 pound ,we will keep the levy under regular review and make adjustments in the coming year if needed.

The current reserves allow for buisness to continue for at least 6 months.

The refurbishment of the LMC offices is complete and cost....

The accounts show funds LMC received for various schemes including the GP mentorship,GP resilience and practice manager training.
